FDOT Cross Sections and Existing Utilities
FDOT Civil 3D State Kit

Florida Department of TRANSPORTATION

Mike Racca - CADD Applications Development Specialist

Production Support Office **|** CADD

605 Suwannee St - MS 40, Tallahassee, Florida 32399

Session Objectives:

This session shows how to Create FDOT Cross Section drawings and convert existing utility line work into pipe networks that can be projected onto cross section views.

➢**Create FDOT Cross-Section drawing (RDXSRD##)**

Cover steps to create FDOT Civil 3D Cross Section file and what drawings are required.

➢**Cross Sections Sheets**

Cover steps to create FDOT Civil 3D Cross Section sheets with Existing Conditions and Proposed Conditions.

➢**Create Pipe Network from Existing Objects**

Automatically create a pipe network from entities such as lines, arcs, 2D and 3D poly lines, feature lines, or alignments.

Thank You!
